`Verified`

•••

Nwebb03 committed last week

---

### ai finding multiple indexes fix

•••

PaulNusser committed last week

---

### First fully working AI (still using smaller dataset)

•••

PaulNusser committed last week

---

### Working AI (only uses valid guesses for speed)

•••

PaulNusser committed last week

---

### fixed same stuff we edited at same time

•••

PaulNusser committed last week

---

### fixed keepGreen

•••

Nwebb03 committed last week

---

### Tried to fix keep_green_words

Nwebb03 committed last week                                                                ...

### fixed deleteGrey and keepYellow

PaulNusser committed last week                                                            ...

### UPdated entropy function, added wordlebot to game, moved list updater to wordlebot

Nwebb03 committed last week                                                                ...

Commits on Apr 19, 2024

### Updated playgame to have file i/o + other minor improvements

Nwebb03 committed last week                                                                ...

### this versiom of game.py can be played by a user, the word is set in the code (no file/IO implementation yet)

PaulNusser committed last week                                                            ...

### Merge branch 'main' of https://github.com/Nwebb03/CS450WordleWizards

PaulNusser committed last week                                                            ...

### update

PaulNusser committed last week                                                            ...

### Made some changes to game.py

Nwebb03 committed last week                                                                ...

### Merge remote-tracking branch 'origin/main'

PaulNusser committed last week                                                            ...

### quick commit

PaulNusser committed last week                                                            ...

### Merge branch 'main' of https://github.com/Nwebb03/CS450WordleWizards

Nwebb03 committed last week                                                                ...

### Added combination matrix to wordlesolver.py

NateWebb03 committed last week                                                            ...

### some game changes

PaulNusser committed last week                                                            ...
